W. A. HEMPHILL,  
J. W. ENGLISH,

A. H. COX.

This Company issues the most attractive, the most economical, the safest and best insurance policy ever offered to the public.

Pays an annuity to the widow during her widowhood, and then to the minor children.

Pays an annuity to the policy-holder in old age or in case of total disability.

The parents may be made the beneficiaries.

Provides an income for the widow and orphans without the delay, responsibility or risk in seeking an investment of insurance money paid under the old system.

At same cost, and equal, if not greater safety, gives to beneficiaries three to four times as much benefit as the old system.

Write for rates and full details.

# Atlanta Industries.

They number about 225.

They represent invested capital of about \$10,000,000.00.

The people they employ number about 20,000.

They receive in salaries daily about \$35,000.00.

They spend daily about \$34,500.00.

They make and spend yearly about \$10,000,000.00.

Dear reader, you can help make these earnings and spendings \$50,000,000.00 or \$100,000,000.00.

How?

Simply by patronizing home industry.

The following firms manufacture about everything necessary for human needs and comfort.

Their respective products are as good, for the price asked, as any made in the world.

They are the people who have struggled and are struggling to make Atlanta the manufacturing and commercial hub of the South, and the most prosperous and widely known city in the Union; therefore it becomes the duty of every true Atlantian to patronize home industry whenever and wherever possible.

It should be every man and woman's delight to point with pride to the home-manufactured products on their table, in their house or on their back, because, when they point to it, they are indicating the trust principle of a people's happiness and prosperity.

Every time you buy an Atlanta-made article you help support an Atlanta workman and his family, you help to make prosperous an Atlanta property-owner, merchant and clerk, by enabling that workman to live in a house, and buy life's necessities from the merchant through the clerk. Thus you help increase the population of the city and the prosperity of the surrounding farmers, and so on, through an endless chain of channels you do good by keeping your money in Atlanta.

Every time you buy an article made elsewhere that is being made here, you help tear down Atlanta's industries and curtail your own and Atlanta's prosperity.

Now, which will you do?

Tear down, or build up Atlanta?

This Company issues the most attractive, the most economical, the safest and best insurance policy ever offered to the public.

Pays an annuity to the widow during her widowhood, and then to the minor children.

Pays an annuity to the policy-holder in old age or in case of total disability.

The parents may be made the beneficiaries.

Provides an income for the widow and orphans without the delay, responsibility or risk in seeking an investment of insurance money paid under the old system.

At same cost, and equal, if not greater safety, gives to beneficiaries three to four times as much benefit as the old system.

Write for rates and full details.
